ACTION OF ALCOHOL.

Not a Stimulant but a Sedative—The Uses of Alcohol—Total Abstinence Perfectly Safe.

J. R. Gasquet in Dublin Review.

It cannot be too often repeated, or too widely known, that (with the slight exception I have mentioned above) alcohol is not a stimulant, but a narcotic and a sedative. It does not increase the healthy activity of any organ of the body, although it may allow of disorderly action; but it depresses and lowers the normal rate of life. To say this is not to condemn its use in health, still less in disease; but it is to supply an explanation of its reasonable employment. It was natural, perhaps inevitable, that the physicians of former time should have looked upon it as a stimulant; but the error has had most pernicious consequences. The authority of medicine has not only been invoked as a cloak of indulgence, but, most lamentably, physicians were led to prescribe alcohol for delicate children and women and so to lay the foundation of drunkenness with all its infinite misery. When we have said that

ALCOHOL IS A NARCOTIC, we have found the true key to its extensive use. If a drug could be discovered which should be a real stimulant to the brain, it would be one such as Plato fabled, making men realize more vividly their miseries, and none would willingly taste it a second time. Like opium (and in a less degree, tobacco) alcohol helps to give a momentary respite from care, and its wide-spread use is a significant comment on the vanity of human life; when we add to this its evanescent stimulant effect, and the frequently pleasant taste of its compounds, we shall need no further explanation of its value to men. From what I have said of its action it will be seen that alcohol may be of service in three different ways—as a narcotic it may be powerful to check the restless activity of an over-worked or over-worried brain; and for this reason

WILL BE ALWAYS IN REQUISITION where the struggle for existence is keen. There is one very serious drawback to this action of alcohol. Its narcotic effect cannot be obtained without some lessening of the clearness and activity of thought; and this is certainly affected by a very moderate quantity of drink. I have questioned many persons, who, having been always temperate, have become total abstainers, and have almost always been assured that they were conscious of an increased mental vigor and aptitude for work, and my own personal experience has been the same. Too little stress has been laid upon this advantage, which those who have to use their brains, and can live without alcohol would be loath to forego. Secondly,

ALCOHOL MAY BE OF SERVICE by lessening tissue-change, and this may be of considerable gain when, from any cause, the waste of the body is excessive, or when sufficient food to maintain its repair cannot be purchased or digested. Total abstainers are often large eaters, and, when they fail, perhaps most frequently do so from being unable to digest the amount of food they seem to require. Here again the evil effects of drink lie close to its benefits, the varied mischiefs of gout, hepatic and renal disease, being due to the same cause which in moderation may be useful.

ALCOHOL IS SOMETIMES NEEDED, for its power of dilating the smaller blood-vessels. The most important examples of this kind of action are to be found in some forms of disease where the circulation is impeded, and where the sluices (so to speak) may be opened by alcohol, and relief given to the over-taxed heart. Two points are of such importance that I venture to repeat them. The first is, that alcohol, whether for good or for harm, does not exalt but depresses healthy action, is a sedative and not a stimulant. The second is that every healthy person may with perfect safety at least make a trial of total abstinence. If then such an one, feeling that the demon of drink which possesses this land is only to be cast out by fasting as well as prayer, still drink no wine in which his brother is scandalized, medicine has this encouragement to offer him at his high resolve.

Pleasures of Russian Life.

[N. Y. Sun.]

In St. Petersburg more than six hundred persons of the noble or privileged classes are under arrest, to be deported to Siberia without trial. In one of the temporary Governor-Generals in the south of the empire (Odessa), sixty privileged persons have been already sent to Siberia without trial, and two hundred persons of this class are under arrest to be judged. So great is the number of persons of this category to be exiled, that a practical difficulty is said to have arisen in connection with their deportation. A noble or privileged person, who has not been judicially sentenced, when sent to Siberia by the orders of the Third Section, or Secret Police, must be escorted by two gendarmes, it being against the laws to manacle a privileged person who is unconquered. It appears that there are not gendarmes enough thus to escort the number of persons to be deported, and the Ministry of Secret Police has proposed to get rid of this difficulty by sending the privileged persons fettered like ordinary criminals. On the other hand the officials are opposed to any such course.

THE NARROWEST NARROW-GAUGE.

The Oldest and Narrowest Railroad in the World.

From Scribner's for Midsummer.

This curiosity is the line, less than fourteen miles in length, from Port Madoc to the Festiniog slate district, known as the Festiniog Railway. It is nominally two feet wide, but really one foot eleven and a half inches, and enjoys the distinction of being both the oldest and the narrowest narrow-gauge in the world. It was the war cry—and the basis, in fact—of the second of the violent modern contrivances known as the battle of the gauges. The first of these, it will be remembered, was between the gauges of seven feet and upward, supported by the noted Isambard Kingdom Brunell, and the standard gauge of four feet eight and a half inches. Brunell proposed to attain unheard-of speed, retaining stability as well, with eleven-foot tracks, ten-foot driving wheels for locomotives, and carriages hung between instead of upon the wheels. I have conversed with a pupil of his, now a distinguished supporter of the extremely opposite views, who shared his experiments, and rode with him at close to

EIGHTY MILES AN HOUR on his Great Western road. He mentions a violent and dangerous lateral jar in the suspended carriages as the cause of their abandonment. The Great Western itself, as late as 1874—the Waterloo it might be called of the first struggle—was relaid to the standard gauge, all comfort and profit in the use of it having been destroyed by the necessity of transshipment at points of contact with others. The Festiniog Railway has lost its exclusive prominence as an example, and is no longer the Mecca it was, now that some twelve thousand miles of narrow-gauges have been laid down in other parts of the world. Most of them are among ourselves, however—there are estimated eight thousand miles for the United States and Canada—and the circumstance adds more than it detracts from the interest of the transatlantic visitor, who may promise himself entertainment in seeing what this fourteen miles of road, parent of twelve thousand, is actually like.

Dr. Mintie's Nephreticum. DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back and loin are cured when all other medicines have failed. See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:

"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction." John A. Childs, Druggist, Second street, Portland.

C. H. Woodward & Co., Druggists, corner First and Alder street, Portland. Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:

"We regard Nephreticum as the best Kidney and Bladder Remedy before the public." All Druggists keep these medicines. For all derangement of the Liver, Use Dr. Mintie's English Dandelion Pills. For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills. For Fever and Ague, Use Dr. Mintie's English Dandelion Pills. Every family should keep the English Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect cure in all troubles for which they are recommended. Osburn & Shoemaker, Agents.

MORRIS & COMPANY, 19 and 21 Post street, San Francisco. Oil Paintings, Water Colors, Engravings and Frames. Velvet Frames of every description for cabinet pictures. These elegant goods are of the choicest description and are the latest productions of some of our most eminent artists. A free Art Gallery connected with the establishment contains the finest pictures in the city, and some of the finest in America. The latest productions of the best artists in the city go directly from the easel to this gallery. Visitors from Nevada are invited to inspect this fine collection. MORE JUSTICES NEEDED.

The illness of Justice Bowker suggests the need of a change in the laws of Nevada, relating to the election of Justices. A statute of this State provides that no township shall elect more than one Justice of the Peace. Hence, in case of the illness or death of the duly elected officer, the wheels of justice must stop until his recovery or a new election takes place. This state of things is not as it should be. Every man is entitled to a prompt trial for every alleged offense. No person should be deprived of his liberty without trial or examination, because of the inability or absence of some one to adjudicate upon his case. Nor should civil suits be stopped for such a reason. An unlooked for delay in the trial of a civil case is usually vexatious, and often occasions serious loss and inconvenience.

The remedy for this state of things is to be looked for in legislation permitting the election of a deputy Justice, or alternate Justice, for each township. Such a change in the law would save much provoking delay in litigation, and enable all prisoners to secure a speedy examination or trial—a right to which every man is entitled, and which should be held sacred. Under the present law, a Justice's court is liable to be closed for months, should the sole Justice be disabled by a long illness. Clearly some change is needed.

BEWARE OF IMPURE WATER.

It has time and time again been demonstrated that typhoid fever, and, it is believed, other fatal diseases originate, in the large majority of cases, from impurities taken into the system through the medium of drinking water. The germs of disease are usually communicated to the water by seepage from cesspools or water closets. For this reason all such receptacles for excreta should be so far away from wells as to prevent any possibility of contamination of the water. The proper distance must vary greatly with the nature of the soil. The soil about Reno is so porous that fifty feet should be minimum allowed. A leading citizen says that in excavating a sink to hold slops from the kitchen he found that the water drained away after a depth of twenty feet had been attained. This fact shows the extreme porosity of our soil and proves the necessity of the observance of the utmost precaution in regard to our wells.

EDITORIAL NOTES

The election of trustees for the Exchequer mining company to-day at San Francisco, resulted in an entire change of management. The rule of the old board was marked by glaring frauds and embezzlement. The overthrow of the Schultz administration will be hailed with joy by the victimized stockholders. They could have no worse trustees than those just ousted. It is to be hoped for the sake of unfortunate investors that the change will be productive of an improvement in the affairs of the company.

A great deal of getting ready is going on on the California Pacific. Gravel has been hauled from Folsom and from Madison and the road between Sacramento and Fairfield has been laid between Sacramento and Davisville. The side-tracks are being lengthened to a uniform capacity of 2100 feet and everything put in shape to run the overland trains that way. The men say they have orders to finish the work by the first of October.

Parole has at last found his match on the English turf. In the race for the Goodwood cup to-day he came in third. But Americans and American horses cannot expect to win all the prizes in England. They have done well enough. To beat the English in walking, rowing, shooting and yachting is triumph enough for one generation. The English idea of the physical superiority of the British over their American cousins has about died out.

Large numbers of the "Dolly Varden" trout are now being captured in the waters of Yankee Fork, says the Herald. One weighing thirty-five pounds was speared near town a few days ago. The "Dolly Varden" is a species of salmon trout, and is considered to be the most palatable as well as the tastiest fish that inhabits the mountain waters.

STATE NEWS IN BRIEF.

Hay #40 in Eureka.
 The Sherwin-Portens concert had a fair audience at Elko.
 "Something resembling a typhoon," tore through Elko last Monday.
 Austin and Eureka are nervously apprehensive of cloud-bursts.
 The Elko Post claims that the trade of Elko goes to Ogden and Sacramento.

Professor Stewart says our bodies invariably occur under depressions on the surface.

The product of the Eureka Consolidated mine for the month of June was \$198,000.

Den Thompson's troupe gives three performances in Eureka about the middle of August.

Some young ladies of Austin now go calling in their night dresses. At least it looks so to the Reville.

At 3:30 p. m. on Tuesday the thermometer marked 107 in the shade at Palisade. The hottest day there.

Wm. A. Edwards, once a prosperous gentleman of Eureka, recently died in the county hospital there.

New gas works are talked of for Eureka. The plan proposed is to manufacture gas from water and enrich it with petroleum.

Out of twenty-two dogs impounded in Eureka, twelve were killed, four redeemed, and six still languish in prison. Taxes have been paid on eighty-four.

A teamster drove into Eureka at night, and tying his big dog to his wagon, started out to see the town. He returned to find eggs, butter, etc., and dog, all stolen.

Parker, the pen man, draws large crowds in Eureka, called together by the witchery of his merry banjo. He is at the old game of giving away \$5 in greenbacks and a box of pens for \$1.

The Temperance Reform Club of Virginia will give an entertainment on the 5th of August, and the lady wearing the handsomest calico dress in the hall will receive a prize consisting of an elegant silver card receiver.

Stranger from Bodie drove into Carson with a pair of boots sticking out of the back of his wagon. Carson turned out to see the supposed dead man. When the coroner's jury came to sit on the body they found it to be merely a stuffed figure.

The Plutes about Austin are departing for Stillwater, Churchill county. They object to coming in contact with the Shoshones, who are numerous about Austin. The Plutes think them slanderous and abusive, and altogether undesirable persons to admit into their set.

That veteran prospector Captain Foley, having received one of Edison's circulars, relative to platinum mines, has promptly responded, informing the inventor that during a prospecting trip in 1868 to the Cascade Mountains in Oregon, he came across large deposits of the metal mentioned, and that he is satisfied he could easily find the locality.

About 11 o'clock last Sunday morning, says the Lyon County Times, Mrs. Beck of Silver City was alarmed by a noisy clatter in the kitchen. On looking into the room she saw a horse running about and another whose hind legs had broken through the floor, and which was held fast. Calling for aid, a dozen men responded, with ropes and planks, and the imprisoned horse was soon extricated. The horses had got into the kitchen through an open door.

PACIFIC COAST ITEMS.

Grouse are very plentiful around Donner Lake.

Leadville has now over forty ore-producing mines.

Over 1000 miners are prospecting about Yankee Fork.

Bonanza City, the new Idaho mining camp at Yankee Fork, is 6400 feet above the sea.

Prices at Yankee Fork, per pound: butter, 50 cents; cabbages, 25 cents; potatoes, 20 cents, and eggs 50 cents a dozen.

The monster ferry boat Solano was successfully launched Tuesday night and is now floating alongside Long wharf. She sits evenly and not too low in the water.

The Ontario mine, Utah, has not missed a daily shipment of ore for two years, except at the time of the fire and during necessary stoppages of the mill for repairs.

The Denver News estimates that fifty thousand people will come into Colorado before the present season closes, with the intention of becoming permanent residents.

Says the Santa Rosa Democrat: B. F. Klein showed us an onion raised on his place in Santa Rosa from seeds since the first rain of the season, which measured 19 1/2 inches in circumference and weighs 3 1/2 pounds.

The Yankee Fork Herald warns poor men away from that district, saying: "At present there are men enough, and more than enough, to do all the work required, and we cannot conscientiously advise men to come here expecting to work for wages."

Bogus Tom Lawton.

Press Dispatch.

Bogus Tom Lawton, at Lewiston, Idaho, has made another statement denying that he is Lawton. The confession is telegraphed, but is so widely at variance with the confessions of Dye and Anderson as to stamp him as an impostor. He says that besides himself, Dye and Anderson, there were engaged in the murder Whipple of San Francisco, Chamberlain, a merchant of Sacramento, and J. K. Woods; that they committed the murder in Tullis' house; that a woman servant witnessed it; that the party all wore masks, and that they obtained some \$30,000 as the proceeds of the undertaking. The fellow is evidently playing to get a free pass down the coast.

CONDENSED TELEGRAMS.

A Brookville (Vt.) telegram says Miss Hugel, aged eighteen, and sister, aged fifteen, were drowned in the St. Lawrence while bathing yesterday.

G. A. Brunner, a Swiss, proprietor of the William Tell Garden, at Stockton, tried to commit suicide last night by shooting himself in the mouth with a pistol. The cause was financial trouble. His recovery is doubtful.

A Victoria dispatch says the vessel wrecked at Barclay Sound proves to be the British ship Becherdass, a baidass of Liverpool, Captain Williams, from Shanghai to Bernard inlet. All hands were saved and have arrived here.

Dispatches from Minnesota announce that the harvest has begun and the weather is favorable. The yield will average fifteen bushels to the acre, making a total amount of 44,000,000 bushels. Most of that raised in the north of the State will be No. 1, and in the south Nos. 2 and 3, all likely to be harvested in good condition.

Carson Smith was drowned, while bathing, in the Carson river three years ago, and his skeleton has just been found.

Talk is Cheap.

And so are fine clothing, boots, shoes and gentlemen's and boys' furnishings. If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this state. Everything we have is new. No old, musty, and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices, and examine our stock before going into those humbugging, cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing, we make a profession of selling, we sell, every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods forms one of our specialties. Remember this place, the White House, No. 19 Commercial Row.

LEGAL NOTICES.

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe, Nevada, do hereby certify that the following is a true and correct copy of the original of the same as filed in the office of the Clerk of said Court, to-wit: A. J. Jones, Plaintiff, vs. J. B. Comstock, Defendant. In an action commenced against you as defendant by J. B. Comstock, plaintiff, in the District Court of the Second Judicial District, and for the county of Washoe, State of Nevada, and answer the complaint thereto within ten days after the service on you of this summons, (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant were married at Mono County, California, on or about July 29th, A. D. 1878, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1878, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, wish or consent; that for more than a year next preceding the commencement of this action you, the defendant, have failed and neglected and now do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is and was not the result of poverty on your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays to be restored to her maiden name and for costs, all of which will more fully appear from the complaint which is on file in the office of the clerk of said Court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, P. B. Comstock, have hereunto set my hand and seal of said Court, this sixth day of December, A. D. 1878.

Nabob Whiskey!

THE PUREST AND BEST

For Medicinal and Family Purposes.

100,000 Cases Sold in 1876.

SIMMOND'S MEDICATED NABOB WHISKY

Has been sold in all the Eastern States and given universal satisfaction. It is highly recommended by the faculty for all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, etc. It is now introduced to the public of the Pacific Slope by the following certificates of the eminent Dr. S. Dana Hayes, State assayer of Massachusetts, and Dr. H. C. Loderback, of St. Louis, Mo., both gentlemen prominent in their profession, which is a guarantee to all buyers of its purity and quality. I can show thousands of letters from private persons from all parts of the Union and Canada, testifying to its merits and the benefit it has afforded, as a family remedy and tonic. Osburn & Shook, Wholesale Dealers for Washoe county, will supply dealers at jobbers' rates by the bulk or case. Pinniger & Quinn, Druggists, and by John F. Myers, Druggist.

WHY STAY POOR?

Prospecting often Pays; Idleness Never.

The millions of the Comstock were a lucky find. Worthless looking rock is often rich in treasure. At Leadville a simple assay made millions of many. Other bonanzas where least suspected await the coming of some unknown man. Who is he? At Virginia City, Nevada, assays for Gold and Silver are made at \$1.00 per sample, by CONRAD WIEGAND, formerly the Supervising Assayer of the U. S. Mint at San Francisco.

The mail will carry ore-samples to his office for one cent per sample.

Reports which may be relied on absolutely, come back by return mail, or results are telegraphed when ordered so.

All costs, delays and risks in remitting money are avoided by the purchase of our Dollar Remittance Tickets, which pay for the work done in our establishment.

We sell these prepaid tickets at a discount, when \$5 worth or more are ordered at one time.

Small sacks for mailing ore samples also for sale at a nominal price.

For further information address C. WIEGAND & CO., Assayers, Virginia City, Nevada.
